# BUILDING HEALTHY HOMES: 2021

**The First Nations Housing Conference (FNHC) is the largest event in Canada built by First Nations for First Nations.**

Over the past 18 years, this conference has been the go-to event for First Nations housing professionals. This year, we are compelled by COVID-19 to bring the 19th annual First Nations Housing Conference to life on a virtual platform. The past year has put an even larger focus on housing with people spending more time at home and health concerns constantly at the forefront. This year, more than ever, we need to come together to share the latest information and learn best practices in Building Healthy Homes.
